

Yellowjacket Heroes – Kris Lentz – class of 1988

Washing your hands is important. As the Life Enrichment Director at Homestead of Overland Park Senior Care Center, 1988 CHS graduate Kris Lentz has the opportunity to serve others on a daily basis. When serving a population of older adults, ensuring that potential exposure to the coronavirus is minimized has become a truly fundamental part of that service. Therefore the mantra - wash your hands, wash them well, and wash them often.

Many things have changed with Kris' job in the last couple of months. Everyone working in care for the elderly has become, by necessity, a "jack-of-all-trades" as needs shift daily. Many of the activities that are part of the job of the Enrichment Director no longer happen, or happen in very different ways. As the needs of her residents have changed, so has the work that Kris does.

At the heart of it all, regardless of the specific duties, is Kris' desire to fulfill her personal mission by serving God's people every day.

Thank you, Kris, for taking care of our elders! You are a Yellowjacket Hero!
